AMUSEMENTS

BUTLER THEATRE

At the Butler theater this after-
noon and evening will be shown an
extremely interesting and strong pro-
gramme, the offering being: "The
Song of Solomon," an exceptionally
good Edison multiple, out of the ordi-
nary. Solomon composes a catchy
tune, but cannot sell it. He decides
to try Trixie, a comic opera star, but
she won't see him at the theater and
throws away his letter unopened.
He takes the next room to hers in a
hotel, hires a piano and sings the
song. He wins. The Hearst-Selig
Weekly No. 26 will also be seen,
showing pictures of the Mexican war
and other interesting events through-
out the world, and an exciting Kalem
picture entitled "A Race with the
Limited." Tomorrow will be shown
the ninth number of "The Adven-
tures of Kathlyn." Sunday, "Dolly
of the Dalles" and "Madame Co-
quette" in two reels.—Adv.

Genuine Rock
Springs Coal...ORE BUYER SAYS NEVADA MINING
NEVER WAS ON A FIRMER BASIS

"Mining conditions throughout the
state of Nevada are exceptionally
good, and I look for even greater ac-
tivity in the various districts this
fall," said Frank M. Manson, general
manager of the Western Ore Pur-
chasing company, operating plants in
Nevada, and the Utah Ore Purchas-
ing company, which has several
plants in Utah, who is at present
making a business visit in Goldfield.
Since the former company makes it
a point to keep tab upon the ore pro-
duction of each district in Nevada,
the remarks of General Manager
Manson are of importance and can
be depended upon as thoroughly re-
liable.

"I think it is safe to say that there
is more legitimate mining being
done in Nevada at the present time
than for six or seven years. The
Seven Troughs district in Humboldt
county is coming back into the lime-
light in a praiseworthy manner, and
there are at present more miners em-
ployed there than for five years.
Several of the properties are obtain-
ing exceedingly good results and are
steadily increasing their shipments.
The Coalition property has just op-
erated up a new body of ore on the
1,150-foot level. The new develop-
ment includes from a foot to a foot
and a half of very rich ore.

"Pending the completion of the
Nevada Short line or Codd railroad
from the mouth of Limerick canyon
to the camp of Rochester in Hum-
boldt county, the operators of that
district have, for the most part, re-
duced their shipments, but they are
carrying forward the work of ex-
tracting ore on a more extensive
scale than ever before. It is calcu-
lated that the extension of the rail-
road will be completed by August 1,
at which time I expect to see the
shipments of ore from the district to
assume a volume far surpassing all
records of the past. The camp is
looking exceptionally good, and it is
apparent that its permanency on the
mining map of Nevada has been firm-
ly established.

"The Bullion district in the north-

eastern part of the state is showing
greater activity at present than for
several years. That the operating
companies are obtaining good results
is shown by the fact that the camp
is shipping an average of a carload
of ore a day.

"Excellent developments are daily
occurring in the new Junco or Hay-
stack district, west of Winnemucca,
in Humboldt county. Several com-
panies have inaugurated operations
there and the new district has ap-
parently an exceedingly promising
future. Another district that is be-
ing rejuvenated is Pine Creek, just
across the California line, which is
reached by the N. C. & O. railroad
from Reno. Masonic, in Mono coun-
ty, California, just across the state
line from Esmeralda county, is also
showing up well."

FOR COMMISSIONER
FOR LONG TERM

Richard B. Davis, better known as
"Dick," has filed his nomination for
the office of county commissioner
(long term) and will be at the pri-
maries for the support of Republican
voters.

Mr. Davis is one of the early in-
ventors and business men of Tonopah
and his associations have made his
name a household word in the com-
munity. He was one of the first to
develop a large mercantile business
and to promote the welfare of the
town and county in every way that a
man could do. As chairman of the
board of county commissioners for
the expiring term his works appeal
to the people and the candidate is
perfectly willing to let his fate rest
with the voters of his party who
want a worker familiar with local
requirements in the courthouse.

For quick results try the want ad
columns of the Bonanza.

PROTECTIVE TARIFF.

The "Protective Tariff Cyclopedia,"
prepared and published by the Ameri-
can Protective Tariff League, New
York, will be ready for distribution
on or about August 1st. The Cyclo-
pedia will contain the official text of
the Underwood law; the Underwood
and Payne-Aldrich laws compared,
giving every rate of duty on articles
in both laws; what one hundred and
fifty-two United States senators and
congressmen said for and against the
Underwood bill; and a copious index
of over 8,000 citations. The volume
will consist of about nine hundred
(900) pages and will answer all ques-
tions on the tariff question.

Proof of labor blanks for sale at
the Bonanza.

PLACER FIELDSCLAIM OWNERS ARE SINKING TO
BEDROCK IN THE LEONARD
CREEK SECTION.

A. Reid arrived last evening from
Leonard creek. Mr. Reid was sum-
moned to the state of Washington on
account of sickness in his family. He
expects to be gone for three weeks,
when he will return to the Leonard
creek placers. Commenting upon the
placer opportunities in northern
Humboldt, he stated to the Humboldt
Star:

"On Tepee and Leonard creeks and
the side gulches most systematic
prospecting is being prosecuted. The
Moffat, Rose and Alley showings are
very rich. Their prospect line for
over 4,000 feet long shows a wealth
of gold. It appears to be an even
distribution, so far as prospects have
determined, of gold, and general
tests show as high values as \$16 to
the cubic yard. It is a fair state-
ment to say that from what is pro-
ven that Moffat, Rose and Alley will
take a big fortune from the placer
estate.

"Other prospectors and claim own-
ers are at work gaining favorable re-
turns, but quite a number as yet
have not attained bedrock. On Leon-
ard creek proper we are on bedrock
with one hole and while our pros-
pects for the last fifteen feet are

rich, the bedrock layer is exceeding-
ly rich.

"Westerly in the dry gulches and
ravines prospectors are getting splen-
did returns. One outfit is hauling
gravel miles to water and making
money out of it.

"The gold is coarse, of fine grade
and shows in good prospect form
over a wide area. The district with
its drain lines is large. It is one of
the best prospective placer fields dis-
covered inland since Boise Basin,
Alder Gulch and Bannock had their
limelight play in years past.

OFF FOR VACATION.

Howard Griffith, auditor of the Vir-
ginia and Truckee, accompanied by
his wife and her niece, Miss Miriam
Egan, of Tonopah, left on the motor
this morning to take train at Reno
for San Francisco and coast points,
where their vacation will be spent.—

"NATIONAL HERO SERIES" NO. 4

Lord Nelson—Old England's Great Naval Hero

WITHOUT Horatio Nelson, England would have been invaded and perhaps con-
quered by Napoleon. At Trafalgar he smashed forever the French
Emperor's hope of creating a naval power. Never was man more
idolized and beloved—not only by all of England's people who breathlessly
awaited news of his telling victories, but by every man of his fleet. A true
Anglo-Saxon, he detested tyrannous powers and legislative usurpations of every
kind. He was particularly opposed to prohibitive enactments governing the diet of
his men, who, like him, enjoyed Barley-Malt brews, even as their fathers did for
countless generations before. Good beer, according to Lord Nelson, has ever been

good food. Budweiser Beer for 57 years has been the product of an institution holding the highest ideals known
to the ancient art of brewing. The output, due to Quality and Purity, has increased every year until 7,500 men
are daily required to keep pace with the public demand. Budweiser sales exceed any other beer by
millions of bottles.

Bottled only at the home plant.
